

Before I came to Spell read I was imbarased to write in a group therefore my marks went down. My nine-year-old brother is a great Speller and he was always correcting My spelling. It was hard for Me to write things with him and I didn't want to stay like that any longer. So I got help... from Spell read. I was 12 and in grade six, It was time. After A bitt less than 6 Months I went up three grade levels in Spelling and My reading got way better too. This was Making School a lot easier. And now it's starting to make life a lot easier too.
